

Js_i = Start-time of job i
 Je_i = Deadline of job i
 p_i = Period between job i and job i+1
 rtv_i = Real-time-violation from job i
 k = Count of jobs
 Jd_i = Deadline of job i
 ■ = Real-time-job
 ■ = Non-real-time-job
 ■ = Real-time-violation

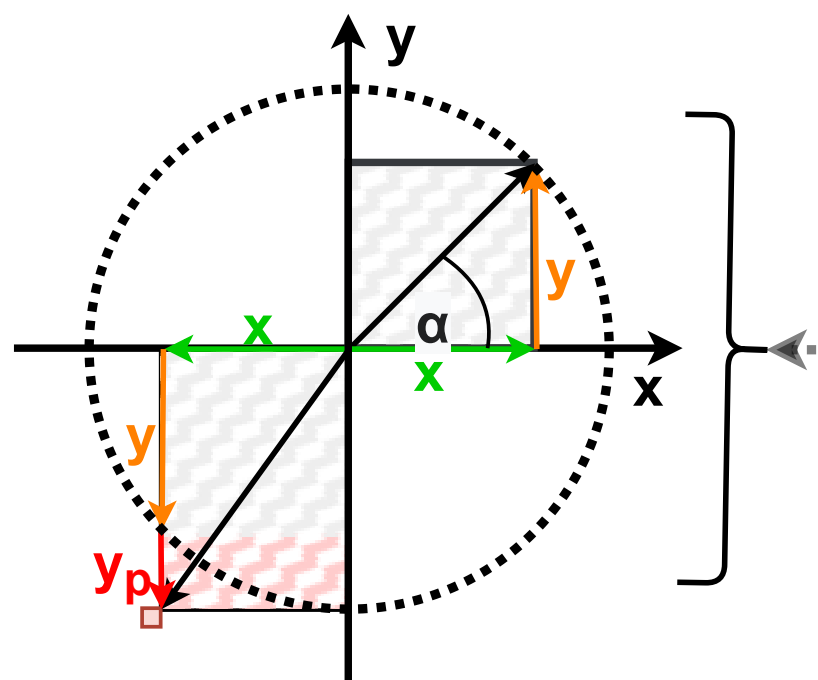

Application Concept

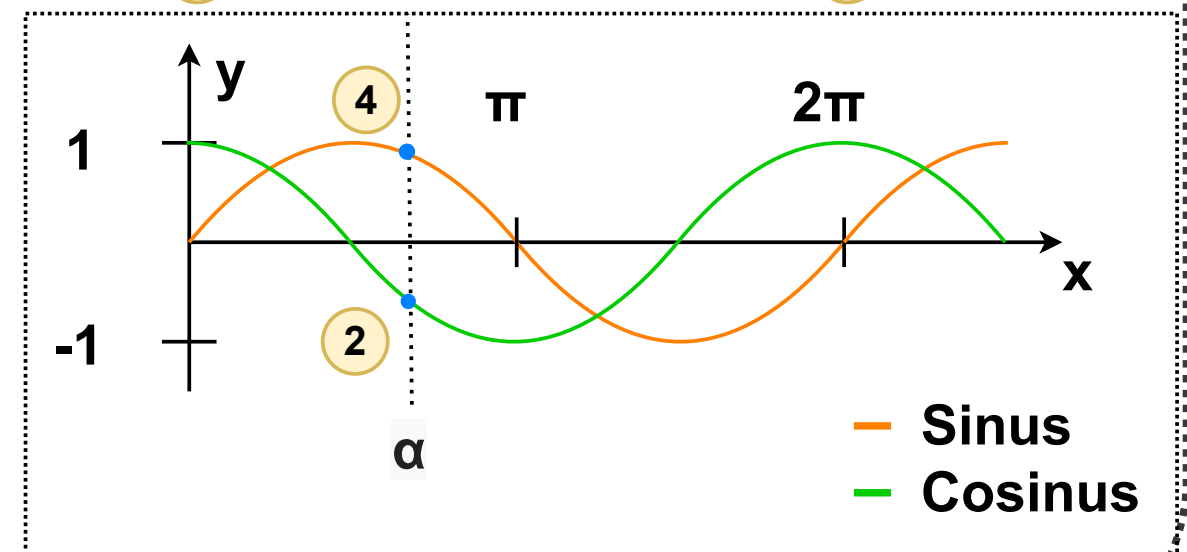

Calculation

$$\sum_{i=0}^k \alpha, x_i, y_i, y_{pi}$$

■ Point after real-time-penalty

Visualization
